Certificate

UXQB® Certified Professional
for Usability and User Experience

Essentials in UX and HCD Management
(CPUX-M)

Alexander Bilstein

has successfully passed the exam for the certificate
Certified Professional for Usability and User Experience
„Essentials in UX and HCD Management"
(CPUX-M)
on 7th January 2023 and was conducted by Certible GmbH.

The certificate confirms that the certificate holder has an understanding of the general terms and concepts in the field of Human-centred Design Management, in particular in the following areas of competence:

- The challenges of HCD management;
- Business terms that every UX professional should know;
- UX and HCD management and leadership;
- Crafting and driving UX vision;
- Creating a shared HCD culture;
- HCD maturity;
- Boosting HCD maturity;
- Measuring the business value of HCD activities;
- Risk management;
- Ethical design and sustainable design.

The certification examination is based on the CPUX-M curriculum developed by the International Usability and User Experience Qualification Board (UXQB). Details, including the CPUX-M curriculum, are publicly available at www.uxqb.org.
